

# dASHdog

dASHdog leashes are made to order from 19mm wide Biothane.

## What is Biothane?

BioThane is a polyester webbing with a PVC coating that makes it durable, waterproof and very easy to clean. The colour will not run & it has the look & feel of leather. It's also stink proof and VERY strong - the 19mm wide we use, has an approximate 340kg of breaking strain!

## Fixings

We use marine grade stainless steel rivets and snap hooks for the collar clip, so you can safely use your dASHdog leash in salt water & know the fixings won't rust.

- marine grade snap hook for the collar clip
- marine grade stainless steel rivets

## Colours currently available

Colours may show slight variance from colours below as all monitors, printers & screens display colours differently.

 <b>BLACK</b> (BL520)	 <b>VIOLET (VI521)</b>	 <b>RED (RD522)</b>	 <b>ROYAL BLUE</b> (BU522)
 <b>ORANGE</b> (OR522)	 <b>NAVY BLUE</b> (BU523)	 <b>APPLE GREEN</b> (GN525)	 <b>MAGENTA</b> (PK526)

## Cleaning

Just pop it in a bucket of warm soapy water & wipe it clean with a soft cloth. Then leave to dry.
